

Valley Branch Watershed District

BMP Cost Share Program Ranking Form

Project:	
Ranker:	
Application Date:	

Rank from 1-10 depending on whether a criterion was: not met, met minimum requirements, or met maximum requirements:

- Water Quality Improvement:** Improves and protects water quality through implementation of practices or processes; retains water from rainfall events; able to provide wide buffer from water front.

1 2 3 4 5 6 7 8 9 10

- Benefits to Wetlands, Lakes, or Streams:** Improves or restores wetland, lake or stream functions of MPCA impaired waters or other VBWD priority waters. (A higher rating is given for projects adjacent to highest level priority lakes.)

1 2 3 4 5 6 7 8 9 10

- Soil Erosion Control:** Remedies visible effects of erosion or provides controls of future erosion.

1 2 3 4 5 6 7 8 9 10

- Wildlife Habitat Improvement:** Creates or improves wildlife habitat through native plantings or other restoration efforts.

1 2 3 4 5 6 7 8 9 10

- Groundwater Improvement:** Improves groundwater by recharge, infiltration or reduction of pollution.

1 2 3 4 5 6 7 8 9 10

Five Bonus Points are added if the project has any of these attributes:

- Innovative Applications: Uses innovative methods. _____
- Collaboration: Involves more than one landowner and provides increased resource protection. _____
- Public Outreach: Publicly visible site. Allows signage, tours, or site visits. _____

Total Score: _____ Minimum Eligibility Score = 30
